Summary

Aspiring Web Developer with a strong foundation in C, Python, PHP, MySQL, Apache and Linux. Familiar with backend web development, basic UI design Git, Docker and Bootstrap. Focused on building practical, user-friendly applications and continuously improving through hands-on learning. Technical Skills.

Technical Skills

Programming languages : C, Python, PHP.

Frontend : HTML5, CSS3, JavaScript, Bootstrap.

Backend: PHP, MySQL

Tools: Git, Docker, Figma, Google stitch, Chat Gpt, claude.ai

UI/UX: basic UI design, wireframe

Projects:

CMS User Registration System (in progress)

building a CMS-style web app using PHP, Bootstrap, MySQL, and Adminer. Completed the user signup module that stores registration data in a MySQL database.

Personal Portfolio Website (PHP)

Designed and developed a personal portfolio website using PHP, focusing on clean code architecture and modular structure. Implemented reusable components for easy maintenance and future scalability. This project demonstrates my backend fundamentals and structured coding practices.
